*****Judge's Notes*****

Some nice entries; great effort on a first show.

Make sure you watch your lighting... a couple horses' heads were lost in the shadows.

Tack – please make sure it is appropriate to the class you are showing in. I saw a lot of saddle pads that were too big or inappropriately colored for their class. Saddles shouldn't come too far back on a horse's back, nor should the pommel/horn stick up too high. Reins need to be sticky

waxed onto your horse with appropriate tension, like they were being held. That doesn't mean, that they have to be up in the air, rather that they need to have contact with the horse's mouth.

Watch those riders – you're better off without them if you can't do what you want them to do... it really detracts from the overall picture!

Also, in your showmanship classes – remember that it is not a good idea to block your horse with a handler. Flip your horse around and place the handler on the opposite side of the camera. If a judge can't see your horse, it can't be judged.
